A decided innovation in gas heating. Unique, scientific. Destroys injurious prodncts and organic matter by intense heat ENGLISH .- From opinion of George Rudd Thompson, F. E. C., F. M. R. S., etc., Public Analyst, Newport, Eng. In my opinion the maximum of heat is evolved by the combustion of the minimum of Gas, without any smell or undue dryness of atmosphere. The theory of stove is, in my opinion, perfect and the result ditto. The percentage of carbonic acid is not sensibly raised in a closed room after ten hours' burning, and the air is not dried to an appreciable extent. As the author has been associated in the Wall-street mind with the organized support of the United States Steel stocks, those stocks shared in yesterday's demonstration, but the seern Pacific indeed started off with a flurry, and St. Paul adopted a preliminary advance of 14. Other stocks to respond were few, and the obvious fact that heavy realizing and lights, \$606.25; packers, \$606.25; butchers, | was going on in the Pacific group of stocks and St. Paul served still further to disinspeculate. A movement in Pennsylvania which developed later and which carried the cars, with holdovers: mostly Texans and common | stock up two points, was nominally due to natives. Glucose developed marked weakness, declining to 40 on heavy selling by a prominent commission house. The downward movement was to some extent due to the announcement that shipments to the interior to-day by the subtreasury had amounted to \$500,000, and that in the opinof a heavy movement of currency from New York. The statement of the imports | 61%c, closed at 61%c. and exports of the United States for the month of September also exercised an unfavorable influence as it disclosed the fact that the excess exports were over \$16,700,000 less than for the corresponding month of last year. Early Gains More Than Lost. [Granger Farwell & Co.'s Telegram.] NEW YORK, Oct. 15 .- The market toheavily bought and made a good advance. There was short covering and the tendency of the market was upwards. In the afternoon prices began to sag off and traders caught stop-loss orders. The whole list became weak and lost all the early gains. Glucose made a sharp decline and all through the list losses were made. There was talk of tighter money. The close was weak at nearly the lowest price

of the day, and talk is bearish.

Wheat and Provisions Close Lower, Corn and Oats a Shade Up-Cash

Demand Very Slow.

TIVE MARKETS.

CHICAGO, Oct. 15 .- Speculation on the Board of Trade started out to-day with bullish tendencies, but the markets turned dull and December wheat closed 1/4c lower, corn and oats a shade higher. Provisions

closed 21/265c to 71/2c lower.

A moderate firmness underlayed the wheat market, though it ruled dull and narrow. The best demand was in the first hour of business, when, under the influence of better Liverpool cables and decreased Northwestern receipts. December opened 4c to %c higher at 70%c to 70%c. This caused a fresh awakening of the bullish spirit that had waned at the close yesterday. The advance, however, enticed sellers, and December sagged early to 70%c. Later there was news of some fair exports and shorts covered till December touched 71c. Then the market turned profoundly dull and wheat bought early began to come out again. December closed barely steady, %c lower at 70%c, having sold even a shade cash, lower. Local receipts were 243 cars, none of contract grade; Minneapolis and Duluth | Rye, 54%c. Clover seed dull and strong; cash, reported 801 cars, making a total for the three points of 1,044 cars, against 930 a year ago. Primary receipts were the same as a year ago-1,051,000 bu. Seaboard clearances in wheat and flour equaled 448,000 bu. The seaboard reported 29 loads taken for export. Corn acted strong throughout the day, though, like wheat, the market was dull and narrow. A range of 1/4c indicates December's fluctuations. May was much firmer and showed a tendency to advance its premium over that of the earlier month's delivery. There was quite an exchange of holdings in December for the later month. Trade was mostly of a professional character, with only a slow cash demand and a liberal country movement. December opened unchanged to a shade higher and ranged between 56%c and 56%c, week. closing steady, a shade higher at 561/2056%c. but prices are steady. Dealers say the situation Receipts were 340 cars. Trade in oats was dull and fluctuations narrow, with nothing like an approach to greater than it has been during the past few the activity of yesterday. Commission- months.
